**PUBLIC PROTECTION CABINET**

Dear Gov. Steven L. Beshear,

As commissioner of the Kentucky Department of Financial Institutions (DFI), I am pleased to present the 2012 Annual Report. The following pages contain statistical and historical information regarding the financial services industry in Kentucky.

During 2012, the DFI celebrated its 100th anniversary as a state agency. This is a tremendous achievement, and I am honored to serve as the commissioner as we reached this milestone. The successes we enjoy today are based on the hard work and dedication of former commissioners, current and former employees, and sound management teams that operate the companies and industries we regulate. During the past 100 years, national events have changed the financial landscape, such as the Great Depression, the savings and loan crisis, and the recent Great Recession; however, Kentucky financial institutions continue to weather these storms and emerge from these challenges even stronger.

Kentucky's financial institutions have successfully managed through the economic turmoil that began in 2007. During 2012, credit quality has strengthened, and financial measures have stabilized and improved in the state-chartered banks and credit unions headquartered in Kentucky. The DFI continues to work closely with financial institutions to encourage economic development.

The Securities Division works hard to protect investors, while encouraging capital formation to provide for future economic growth. In addition to working closely with law enforcement agencies to address regulatory concerns, DFI also provides investor education to help Kentucky residents save, spend and invest wisely.

The Nondepository Division provides effective oversight of non-bank financial institutions, such as mortgage loan companies, mortgage brokers and consumer loan companies. With the rapid and dynamic changes in information technology, payments systems and alternative lending industries, the Nondepository Division has diligently protected consumers and provided appropriate regulatory oversight of the companies we license and examine.

The DFI remains a leader in financial regulation. This annual report indicates that Kentucky's financial services industry remains committed to helping our communities and residents prepare for future economic growth. The DFI will fulfill its mission of maintaining a stable financial industry, providing effective and efficient regulatory oversight, promoting consumer confidence and encouraging economic opportunities.

Sincerely,

A handwritten signature in black ink, reading "Cha A. Vice".

Charles A. Vice, Commissioner

# History of DFI

## Honoring 100 Years of Protecting Kentucky's Financial Interests

---

DFI traces its origin to the Banking Act of 1912, which established the agency initially as the Department of Banking. Gov. James B. McCreary appointed Thomas J. Smith as the first commissioner, effective July 1, 1912. The department was charged with enforcing laws relating to banks, trust companies, savings banks and combined bank and trust companies doing business under Kentucky law. The first annual report lists six employees – a commissioner, deputy, clerk, and several examiners. Initially the Department supervised 466 commercial banks, savings banks, independent trust companies and title companies with total assets of only \$110 million. Exam fees ranged from \$15 for banks with a “capital and surplus of \$20,000 or less” to \$35 for those between \$50,000 to \$100,000, plus a \$10 fee for each additional \$100,000.

The legislature mandated supervision of state-chartered savings (building) and loan associations in 1918 and added state-chartered credit unions in 1922. When the agency began oversight of the state's securities industry in mid-1932, it was renamed the Department of Banking and Securities. The next year, as the Great Depression continued, the FDIC was created. In 1933, Kentucky bank closures reached an all-time high when 23 state banks failed.

Over the years, other regulatory responsibilities were added, including consumer and industrial loan companies in 1946, companies that sell money orders in 1966, mortgage loan companies and brokers in 1980 and check-cashing companies in 1992. As the agency's scope increased over the years to include other types of financial

institutions, its organizational structure and name changed as well. It was renamed the Department of Financial Institutions in 1984.

# Mission, Values and Vision

---

## Values

The Department of Financial Institutions (DFI) and its employees have a tradition of outstanding public service. Seven core values guide our employees to fulfill the Department's mission and vision:

### **Effective and Efficient Operation**

We will wisely use the resources entrusted to us by the Commonwealth to ensure maximum output is achieved for each dollar invested.

### **Responsibility**

We accept the serious nature of the tasks (or duties) entrusted to us, and we are willing to be held accountable for the actions we choose.

### **Professionalism**

We will provide quality services, which will be achieved through excellence, accountability, innovation and a highly skilled workforce.

### **Integrity**

We will act honestly, fairly and impartially.

### **Teamwork**

We will achieve organizational goals through open, responsive communication and cooperation with co-workers, other state government agencies and federal regulatory authorities.

### **Respect**

We will be sensitive to the viewpoints and efforts of others, and we will strive to meet the needs of all of our stakeholders.

### **Initiative**

We will identify potential issues that may impact the financial services industry, formulate appropriate solutions and proactively respond to change.

## Vision

The Department will:

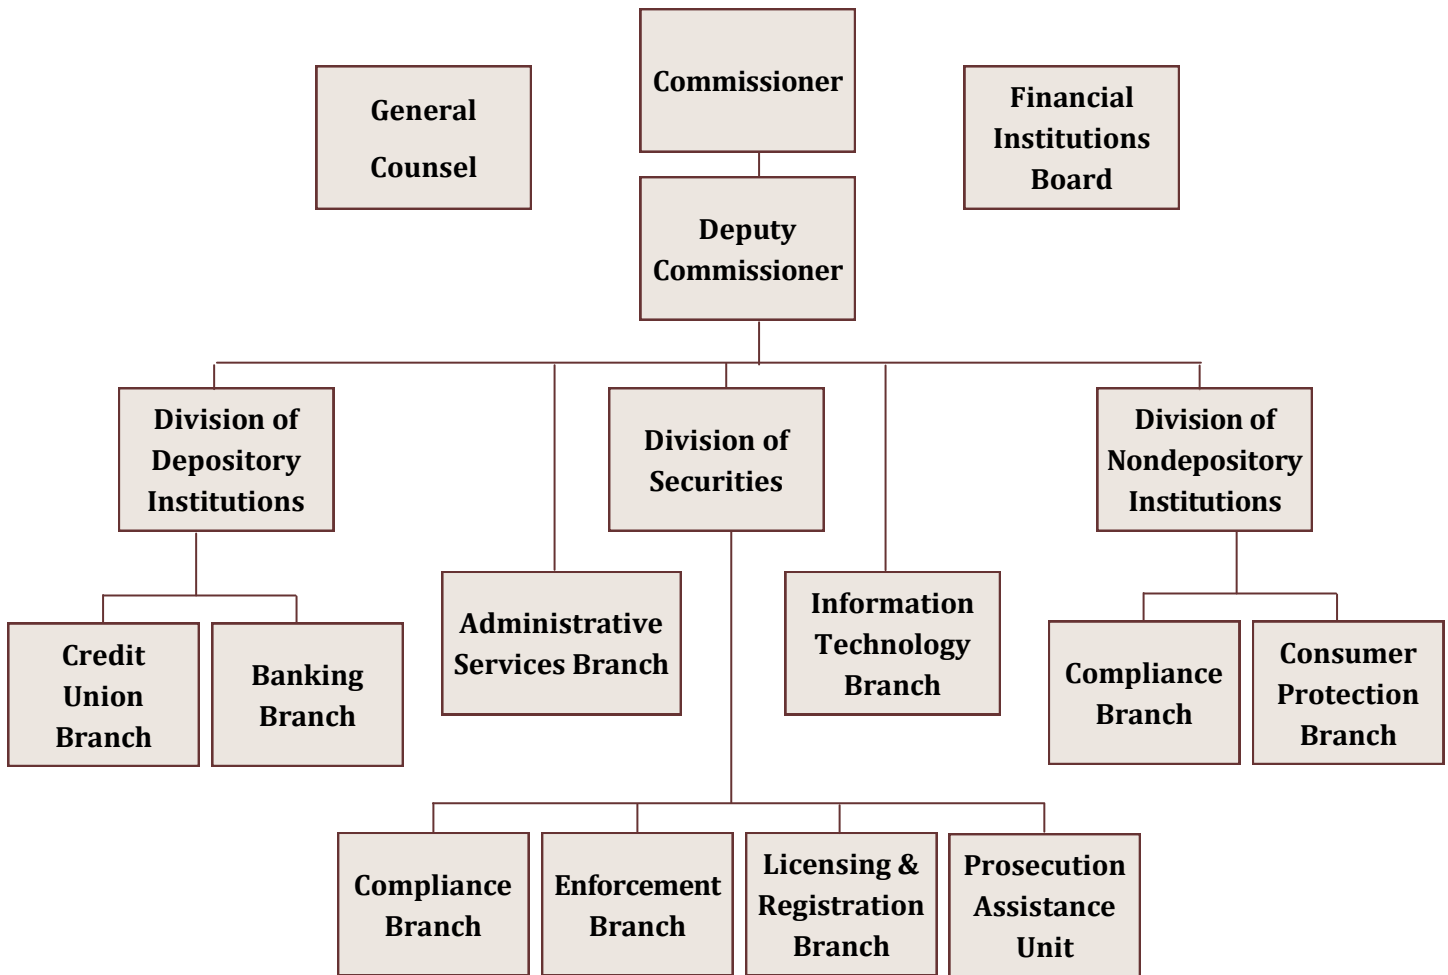

- Be a leader in developing and implementing sound public policies
- Be an effective, proactive, credible and respected regulatory agency
- Be a leader in educating and protecting the investing, depositing and borrowing public
- Encourage capital formation and economic development
- Achieve a work environment that encourages career opportunities, professional development and equitable compensation
- Be responsive to emerging industry trends and issues, and implement appropriate strategies

## Mission Statement

*The Department of Financial Institutions' mission is to serve Kentucky residents by maintaining a stable financial industry, continuing effective and efficient regulatory oversight, promoting consumer confidence, and encouraging economic opportunities.*

# Organizational Structure

---

# Administrative Services Branch

---

Employees in the Administrative Services Branch provide administrative support to the department in the following areas:

- Facilities management — Frankfort office and field offices in Eddyville, Bowling Green, Louisville and Frankfort
- Fiscal management
- Operations and quality control
- Records management
- Staff development: coordinating employee training, continuing education and examiner certification programs
- Safety Officer
- Budgeting
- Revenue and expenditure analysis
- Personnel

In 2013 the Administrative Services branch continues to focus its efforts on recruiting new staff and retaining qualified employees to maintain uninterrupted delivery of services to the industry and public. Fifteen examiners left or retired in fiscal year 2012. A primary agency goal is to hire, train and maintain a highly informed and capable staff. One of the ways the department seeks to accomplish this goal is through staff development by identifying training needs, developing and delivering agency specific training, coordinating and/or sharing training and education resources with other state and federal agencies, and assuring equal access to continuing education and training opportunities for all employees.

Through continued innovation and open communication, DFI believes its past accomplishments will carry forward into the future and enable this agency to deliver the highest possible quality of training and career development opportunities and employee support services.

As it has for many years, the department maintains a toll-free telephone number. Consumers and industry representatives wanting to speak with a member of the agency's staff are encouraged to call 800-223-2579 with their questions and concerns. Information for consumers, regulated industries and the general public is available online at <http://kfi.ky.gov>. Business hours are from 8 a.m. to 5 p.m. Eastern time at our office located at 1025 Capital Center Drive, Suite 200, Frankfort, KY 40601.

## **Bank Branch**

---

### **100th Annual Banking Report**

The Bank Branch supervises the activities of 154 Kentucky state-chartered banks, ranging in asset size from \$22.2 million to \$3.6 billion. The majority of Kentucky state-chartered banks remain in a relatively stable financial condition compared to our contiguous states and nationally. As the economy slowly recovers, state-chartered banks that possess large commercial real estate concentrations have lagged behind their state-chartered peers in performance. No state-chartered bank failed in Kentucky during 2012.

Net income rebounded in 2012, as the statewide ratio of return on assets (ROA) increased from 0.65 percent in 2011 to 1.06 percent in 2012. The state-chartered ROA compares favorably to the national average of 1.00 percent for 2012. Although statewide ROA increased, the net interest margin declined slightly year over year, decreasing from 4.02 percent to 3.94 percent. The average allowance for loan and lease losses remained steady at 1.72 percent of loans.

Capital levels have improved slightly year over year as indicated by the equity capital position which equaled 10.87 percent in 2012 compared with 10.48 percent in 2011. Additionally, total risk-based capital for Kentucky state-chartered banks averaged 16.07 percent compared to 15.60 percent in 2011.

### **Bank Changes**

During 2012 there was one bank merger. Farmers Deposit Bank of Eminence, Ky., merged with Citizens Deposit Bank & Trust located in Vanceburg, Ky.

### 78th Annual Credit Union Report

Kentucky state-chartered credit unions are safe and sound. Indicators reveal that Kentucky's economic growth is slowing and lagging behind the nation and the region. However, Kentucky state-chartered credit unions performed well in 2012.

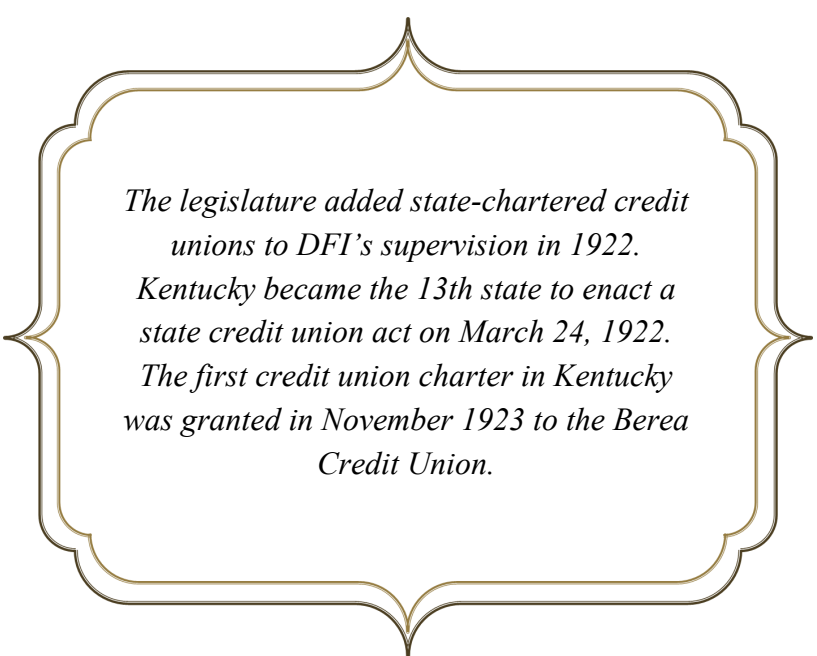

The Credit Union Branch supervises the activities of 24 Kentucky state-chartered credit unions, ranging in asset size from \$703,053 to \$928,031,441. The total assets under supervision by the Credit Union Branch are \$1,921,587,548. Total asset growth was at 4.17 percent, which is down from the previous year's growth of 7.59 percent.

Kentucky state-chartered credit unions strengthened financially in 2012. The net worth ratio grew to 15.19 percent and the return on average assets ratio reached a five-year high at 1.05 percent.

Asset quality is very good with a delinquent loans to total loans ratio of 1.01 percent and a net charge-offs to average loans ratio of 0.62 percent.

The net long-term asset ratio continues to rise and is currently at 32.08 percent as credit unions grant more real estate mortgage loans and extend investment terms. This scenario could potentially expose credit unions to an increase in interest rate risk.

Loan growth slowed to 3.30 percent after 5.25 percent growth last year. Real estate loans account for 44.65 percent of total loans. Total fixed rate real estate loans held steady in 2012 at 31.03 percent of total loans.

*The legislature added state-chartered credit unions to DFI's supervision in 1922. Kentucky became the 13th state to enact a state credit union act on March 24, 1922. The first credit union charter in Kentucky was granted in November 1923 to the Berea Credit Union.*

# Division of Nondepository Institutions

---

DFI's Division of Nondepository Institutions has two branches: the Compliance Branch and the Consumer Protection Branch. The staff consists of 24 examiners and investigators. Due to the rapid and constant evolution of consumer finance laws and regulations, such as The Dodd-Frank Act, the continuing education and training of examiners and investigators is imperative to upholding the DFI mission. The Division of Nondepository Institutions is committed to continued learning for staff development. In addition, the division provides educational materials and outreach to protect consumers from financial fraud.

## Compliance Branch 14th Annual Compliance Report

The Compliance Branch is responsible to license, examine, investigate and oversee the operations of non-bank financial institutions, comprised of mortgage loan companies, mortgage brokers, consumer loan companies, industrial loan companies, check cashers, deferred deposit/payday lenders and money transmitters. The Compliance Branch also registers and supervises the activities of mortgage professionals such as mortgage loan originators and mortgage processors.

The Compliance Branch registers and licenses the individuals and companies in the mortgage industry through the Nationwide Mortgage Licensing System (NMLS). The staff also participates in multi-state examinations and investigations, which identify and correct mortgage underwriting and servicing issues. Beginning in August 2012, money transmitters could also use the NMLS system for the convenience of online applications and renewals.

## Consumer Protection Branch 4th Annual Consumer Protection Report

The Consumer Protection Branch investigates complaints and suspicious activity for non-bank institutions. The investigators identify, examine and take action against those companies and individuals who exhibit unethical behavior or perpetrate financial crimes against Kentucky citizens. In addition, the Consumer Protection Branch is responsible for enhancing public protection and consumer education through instructional outreach programs. The Consumer Protection Branch investigated 148 complaints and 131 complaints in 2011 and 2012 respectively, on behalf of Kentucky consumers.

## 26th Annual Securities Report

State securities regulators deliver effective protection for investors and efficient regulation of the industry. Throughout the years, the Commonwealth of Kentucky's commitment to investor protection through education and strong enforcement of state securities laws has remained unchanged. Last year the Securities Division conducted 142 examinations and 80 investigations which resulted in 19 administrative orders and one civil order. At the end of last year 51 investigations were pending. Recent years have seen the increase of new and complex financial products in the market. As more complicated securities products enter the market, transparency regarding these products will be critical to deter fraud and ensure that investors understand the level of risks so they can make sound investment decisions.

The facilitation of access to capital for new and small businesses continues to be a challenge. In 2012, Congress passed the JOBS Act in an effort to make it easier for small and emerging companies to raise capital and grow. State securities regulators support the idea that the opportunity to invest in small businesses, including emerging businesses, should exist for all investors as long as the risk involved is clearly understood and they have the financial ability to absorb related losses. The Securities and Exchange Commission has been charged with the rulemaking process for Title III of the JOBS Act better known as the CROWDFUND Act.

*A June 1937 audit of the agency noted the Securities Division then had three staff members: a director, a secretary/bookkeeper and a porter. The report stated, "In view of the constant public service that may be rendered through the Division of Securities, it would seem that the investigation work of the Division well might be extended beyond its present scope. ... Such extension could be made to public advantage."*

The mission of the Division of Securities is to 1) protect investors through the active implementation and application of Kentucky's securities laws in order to prevent investment fraud and related illegal conduct, and by taking remedial action, when possible, to mitigate the harm done to the investor, 2) educate the investing public about investment matters and making informed investment decisions, and 3) provide investor protection without undue burden on the capital formation process.

To fulfill its investor protection mission, the Division of Securities performs a variety of functions intended to help ensure that securities transactions are effected in compliance with the Kentucky Securities Act, and that investors have the necessary material information with which to make informed investment decisions and select securities professionals with whom to entrust their money. The Securities Division supports the DFI staff in performing educational outreach to high school students and community groups about savings and investing, participates in financial literacy forums across the commonwealth, and distributes informational brochures on financial matters through public libraries, county cooperative extension agencies and other public venues.

## Licensing and Registration Branch Report

Employees in the Licensing and Registration Branch process applications for the registration of broker-dealers, investment advisers and their licensed employees. The licensing staff can deny the applications of firms and individuals who do not meet the requirements of the Kentucky securities laws. The licensing staff also responds to inquiries from the public concerning investment adviser or broker licensing status and disciplinary history.

## Enforcement Branch Report

Investigators in the Enforcement Branch investigate allegations of securities fraud and related illegal conduct. In coordination with DFI's legal staff, the investigators assist with administrative and civil actions the department may pursue against alleged violators of the Securities Act. In addition, division investigators work closely with outside law enforcement agencies and assist securities investigators from sister states. The most serious cases are referred by the division to state and federal authorities for criminal prosecution.

*\*The 2011 fines include a national settlement with Morgan Keegan relating to RMK bond funds.*

*\*\* 2011 restitution numbers include restitution ordered in criminal actions in which the Department provided assistance. In some of the cases the restitution amount is still being litigated. Also included is the Morgan Keegan RMK bond fund restitution.*

## Prosecution Assistance Unit Report

The primary role of DFI's Prosecution Assistance Unit is to assist prosecutors in preparing criminal cases involving securities law violations. The unit also will provide the investigative support to successfully bring securities cases to trial. The recently created unit includes an attorney supervisor and staff attorney, and these individuals will work with local and federal prosecutors and law enforcement, including FBI agents, the U.S. Postal Inspection Service, the Secret Service and state and local police.

*On July 11, 2012, DFI celebrated its 100th anniversary as a state agency at a reception in Frankfort. The current commissioner joined five prior commissioners in a panel discussion about the changing economic times, DFI accomplishments and other interesting historical facts. The Centennial Event Commissioners Panel was, left to right, Charles Vice, Ballard Cassady Jr., Randall Attkisson, Rick Jones, Tracy Farmer and Cordell Lawrence.*
